## University Profile/Introduction

Established under an Act of Sindh Government (Pakistan) in 1998, Greenwich University is duly recognized by the Higher Education Commission (HEC) as an autonomous degree-awarding university. Greenwich, as a seat of learning, is known for its academic excellence, and acknowledged across the world as one of the leading institutions of higher education in Pakistan. Greenwich University is also legally empowered to offer its degree program overseas, and to grant affiliation to other institutions.

We offer an educational experience which takes the students beyond their classroom learning. At Greenwich, we consider education to be a life-long endeavor, and therefore constantly develop our programs to provide our students with professional skills and knowledge to take their place as leaders in the world of business, commerce, media studies, or any other professions they may choose to pursue.

Greenwich University offers a wide range of undergraduate and graduate degree programs designed to meet all professional challenges, through offering more than 166 courses in different disciplines like Business Administration, Mass Communication & Media Sciences, and Social Sciences & Humanities. The university is proud of its over 3000 alumni already working as Corporate Leaders, Directors and Entrepreneurs and making effective use of their knowledge and skills for the development of the country. Our degree programs have been instrumental in imparting the knowledge and developing the business acumen required for the transition to high levels of success.

Since its inception, Greenwich University has gone from strength to strength, witnessing a paradigm shift in terms of technology, expansions to the infrastructure, introduction of new degree programs, as well as a good number of enrolments. The rankings released by HEC has placed Greenwich University among the top 10 business schools of Pakistan, which stands as a matter of pride for us, and is

indicative of our continued efforts to be among the best.

The university has formed international collaborations with a number of foreign universities, besides being affiliated with a number of local and foreign educational accreditation bodies. A few of the foreign universities that we are collaborating with are Bangor University of Wales in United Kingdom, Liaoning University of China, Fateh University and Ankara University in Turkey, University of Malaysia Perlis in Malaysia, Dhaka University in Bangladesh, with memberships of accreditation bodies such as IAU, NAFSA, AACSB, INQAAHE, APQN, ACU, AMBA and Tallories Network. We are also in nexus with Federation of Pakistan Chambers of Commerce & Industry (FPCCI) and Karachi Chamber of Commerce and Industry (KCCI) in Pakistan.

The organization employs a team of dedicated and well-trained men and women, serving in both civil service and academic professional positions, to drive the mission of Greenwich to prepare the next generation of intellectuals. Its aim is to provide a safe, functional, and attractive environment for students, faculty, staff, alumni and visitors, conducive to learning, as well as supporting the University's tradition of excellence.

The university is proactive in all its operational facets, continually adaptive of the rapid changes and progresses taking place in the educational environment of the present day. Activities such as documentaries, presentations, event management, debates and discussion, field trips, seminars and conferences make up part of the curriculum to facilitate enhanced heuristic learning for the student.

The aim is to make the graduates highly competent individuals capable of facing any challenge, as such, the approach towards the curriculum is truly contemporary and modern and remains committed towards providing a supportive learning environment which helps students in their professional careers.
